THE BLOCKCHAIN ADVISORS

High-Level Impact Assessment

Blockchain Readiness Assessment

Full Advisory Service

Education

High-Level Impact Assessment

Together we define the impact and possible application areas for blockchain technology in line with your business model.

- Evaluation of blockchain solution vs. traditional database
- Identification of impact on overall organization
- Change management and stakeholder alignment
- Definition of implementation strategy / next steps

You receive an individual Blockchain Impact Heatmap with an explicit recommendation if and where a blockchain solution might benefit your business.

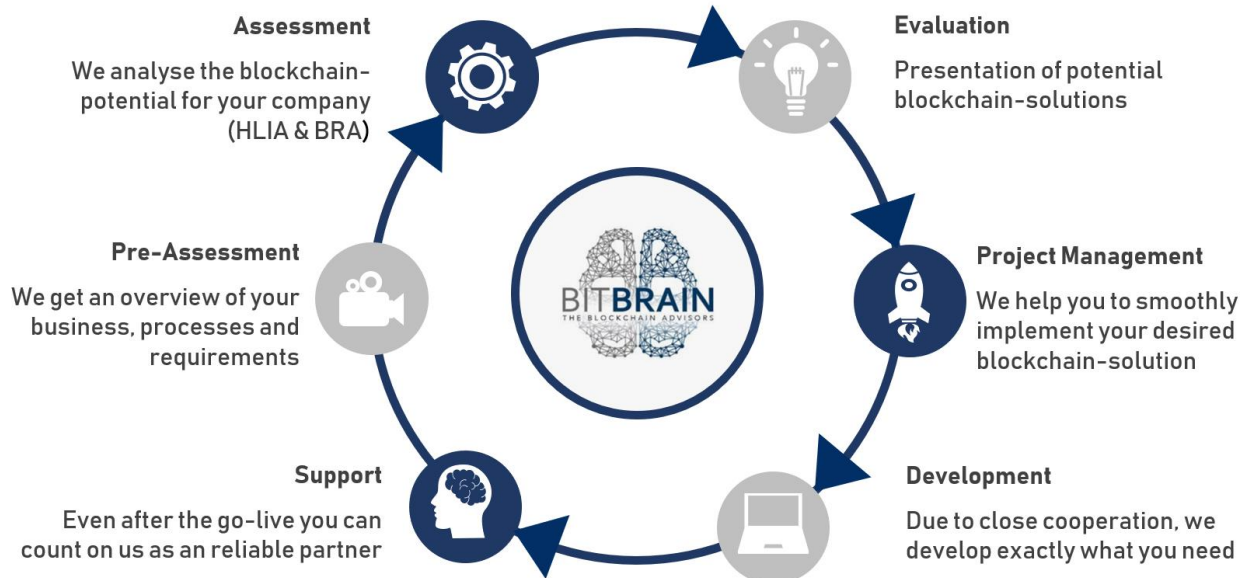

Blockchain Readiness Assessment

Together we evaluate your readiness for the blockchain technology as well as helping you to improve

- Analysis of skills, mind set and cultural readiness of the company
- Identification which additional resources (financial, know-how) are required
- Development of a cooperation model including all relevant stakeholders

Full Advisory Service

If there are possible blockchain solutions for your business we are glad to help you implementing those.

Workshops

We provide a broad range of adaptable workshops concerning blockchain technology. The content ranges from the basics to professional trainings.

If you plan an internal workshop for your employees, our university lecturers for blockchain technology are glad to help.

You want to get ready for the future?

🎯 We would be glad to help!
